## Webstedsafsnit 'Oversigt'

Fulde navn på artikel 8 (del)fond:	Oversigt
Global X Clean Water UCITS ETF	<p>Fonden fremmer investeringer i virksomheder, der har forretningsaktiviteter inden for forsyning af rent vand ("Clean Water Companies") ved at replikere Solactive Global Clean Water Industry v2 Index ("<b>indekset</b>").</p> <p>Fonden vil forsøge at replikere indeksets resultater med forbehold for fradrag af gebyrer og udgifter ved primært at investere i en portefølje af værdipapirer, der er kapitalandele, der så vidt muligt og praktisk muligt består af indeksets komponentværdipapirer i samme forhold som deres vægtninger i indekset og i amerikanske depotbeviser ("<b>ADR'er</b>") og globale depotbeviser ("<b>GDR'er</b>") baseret på værdipapirerne i indekset.</p> <p>Clean Water Companies, som defineret af Solactive AG, udbyderen af indekset ("<b>indeksudbyderen</b>"), er de virksomheder, der udleder mindst 50 % af deres omsætning, driftsindtægter eller aktiver fra følgende forretningsaktiviteter: (1) Industriel vandbehandling, -genanvendelse (herunder vandindvinding), -rensning og -bevarelse; (2) vandopbevaring, -transport, -måling og -distributionsinfrastruktur; (3) produktion af vandrenserere og varmeprodukter til husholdningsbrug og erhvervsmæssig brug; (4) levering af økonomisk aktivitet, der bidrager til et miljømæssigt eller socialt mål, forudsat at investeringen ikke i væsentlig grad skader et miljømæssigt eller socialt mål, og at de investerede virksomheder følger god ledelsespraksis.</p> <p>Indekset vægtes i henhold til indeksudbyderens proprietære ESG-bedømmelser. Indeksudbyderen gennemgår i samarbejde med ESG-dataudbyderen, Minerva, hvert kvartal hver bestanddel af indekset for overholdelse af principperne i FN's Global Compact samt for involvering i produktionen af kontroversielle produkter. Kontroversielle produkter defineres af Minerva som produkter, der udgør en væsentlig risiko på grund af, at en stor del af investorerne opfatter dem som krænkende, pinlige, skadelige, socialt uacceptable eller etisk anstødelige. Enhver eksisterende eller potentiel bestanddel af indekset, som ikke opfylder standarderne for arbejdskraft, menneskerettigheder, miljø og anti-korruption som defineret af FN's Global Compact-principper, eller som overtræder de fastsatte tærskler for involvering i kontroversielle produkter fra og med den kvartalsvise gennemgang, vil blive udelukket fra indekset, som bestemt af indeksudbyderen.</p>
Global X CleanTech UCITS ETF	<p>Fonden fremmer investeringer i børsnoterede selskaber, der er positioneret til at drage fordel af den øgede indførelse af teknologier, der fokuserer på at forbedre effektiviteten af produktionen af vedvarende energi og/eller afbøde de negative miljøvirkninger af ressourceforbrug ("<b>CleanTech</b>"), herunder, men ikke begrænset til, virksomheder, hvis hovedforretning er at udvikle teknologi vedrørende vedvarende energi, energieffektivitet og lagring, smart grid, lithium-ion-batterier og/eller brændselsceller, og/eller forureningsforebyggelse/-forbedring (samlet benævnt "<b>CleanTech-virksomheder</b>"), som defineret af Indxx LLC, ("<b>indeksudbyderen</b>") af Indxx Global CleanTech v2 Index ("<b>indekset</b>").</p>

## Global X Management Company (Europe) Limited

	<p>Fonden vil forsøge at replikere indeksets resultater med forbehold for fradrag af gebyrer og udgifter ved primært at investere i en portefølje af værdipapirer, der er kapitalandele, der så vidt muligt og praktisk muligt består af indeksets komponentværdipapirer i samme forhold som deres vægtninger i indekset og i amerikanske depotbeviser ("<b>ADR'er</b>") og globale depotbeviser ("<b>GDR'er</b>") baseret på værdipapirerne i indekset.</p> <p>Indekset vægtes i henhold til indeksudbyderens proprietære ESG-bedømmelser. Indeksudbyderen gennemgår i samarbejde med ESG-dataudbyderen, Minerva, hvert kvartal hver bestanddel af indekset for overholdelse af principperne i FN's Global Compact samt for involvering i produktionen af kontroversielle produkter. Kontroversielle produkter defineres af Minerva som produkter, der udgør en væsentlig risiko på grund af, at en stor del af investorerne opfatter dem som krænkende, pinlige, skadelige, socialt uacceptable eller etisk anstødelige. Enhver eksisterende eller potentiel bestanddel af indekset, som ikke opfylder standarderne for arbejdskraft, menneskerettigheder, miljø og anti-korruption som defineret af FN's Global Compact-principper, eller som overtræder de fastsatte tærskler for involvering i kontroversielle produkter fra og med den kvartalsvise gennemgang, vil blive udelukket fra indekset, som bestemt af indeksudbyderen.</p>
Global X Hydrogen UCITS ETF	<p>Fonden fremmer investering i virksomheder, der er positioneret til at drage fordel af yderligere fremskridt inden for brintteknologi.</p> <p>Brintteknologi omfatter produkter og tjenester med fokus på udvikling og implementering af brintgas som vedvarende brændstofkilde.</p> <p>Nærmere bestemt vil fonden forsøge at replikere resultaterne af Solactive Global Hydrogen v2 Index ("<b>indekset</b>"), der vil omfatte værdipapirer udstedt af "<b>brintvirksomheder</b>" som defineret af Solactive AG ("<b>indeksudbyderen</b>") som de virksomheder, der udleder mindst 50 % af deres omsætning, driftsindtægter eller aktiver fra følgende forretningsaktiviteter: 1. Brintproduktion: Virksomheder, der er involveret i produktion, transport, opbevaring og distribution af brint (herunder vedvarende brint), som kan bruges som energikilde. 2. Brintbrændselsceller: Virksomheder, der udvikler og/eller fremstiller brændselsceller (og komponenterne deraf), der omdanner kemisk energi til elektricitet og varme, drevet af brintbrændstof og/eller reformeret brintrig gas. 3. Brintteknologi: Virksomheder, der er involveret i produktion af brintelektrolysatorer (som producerer brintgas fra vand), tanke og rørledninger, erhvervs- og boliginfrastruktur, generatorer, motorer og køretøjer drevet af brintbrændselsceller, samt brinttanksstationer. 4. Integration af brint: Virksomheder, der leverer ingeniør- og konsulenttydelser til vedtagelse og udnyttelse af brintbaseret brændstof og/eller energikilder på bolig-, erhvervs- og industriniveau.</p> <p>Derudover er virksomheder, der af indeksudbyderen identificeres som havende mere end 0 %, men mindre end 50 % af omsætningen fra de ovenfor beskrevne forretningsaktiviteter ("<b>diversificerede brintvirksomheder</b>"), samt virksomheder, der af indeksudbyderen identificeres som havende primære forretningsaktiviteter i de ovenfor beskrevne forretningsaktiviteter, men som ikke aktuelt genererer omsætning ("brintvirksomheder, der ikke aktuelt genererer omsætning"), kvalificerede til inklusion i indekset. Desuden er diversificerede brintvirksomheder og brintvirksomheder, der ikke aktuelt genererer omsætning, underlagt en individuel vægtgrænse på 2 % og en samlet vægtgrænse på 10 % ved hver halvårlig rebalancering.</p> <p>Fonden vil forsøge at replikere indeksets resultater med forbehold for fradrag af gebyrer og udgifter ved primært at investere i en portefølje af værdipapirer, der er kapitalandele, der så vidt muligt og praktisk muligt består af indeksets komponentværdipapirer i samme forhold som deres vægtninger i indekset og i amerikanske depotbeviser ("<b>ADR'er</b>") og globale depotbeviser ("<b>GDR'er</b>") baseret på værdipapirerne i indekset.</p> <p>Indekset vægtes i henhold til indeksudbyderens proprietære ESG-bedømmelser. Indeksudbyderen gennemgår i samarbejde med ESG-dataudbyderen, Minerva, hvert kvartal hver bestanddel af indekset for overholdelse af principperne i FN's Global Compact samt for involvering i produktionen af kontroversielle produkter. Kontroversielle produkter defineres af Minerva som produkter, der udgør en væsentlig risiko på grund af, at en stor del af investorerne opfatter dem som krænkende, pinlige, skadelige, socialt uacceptable eller etisk anstødelige. Enhver eksisterende eller potentiel bestanddel af indekset, som ikke opfylder standarderne for arbejdskraft, menneskerettigheder, miljø og anti-korruption som defineret af FN's Global Compact-principper, eller som overtræder de fastsatte tærskler for involvering i kontroversielle produkter fra og med den kvartalsvise gennemgang, vil blive udelukket fra indekset, som bestemt af indeksudbyderen.</p>
Global X Renewable Energy Producers UCITS ETF	<p>Fonden fremmer investering i vedvarende energikilder, herunder vind, sol, vandkraft, geotermisk energi, og biobrændstoffer, ved at investere i børsnoterede selskaber, der er noteret på enten udviklede eller nye markeder (undtagen Indien), og som producerer energi fra vedvarende energikilder, herunder vind, sol, vandkraft, geotermisk energi, og biobrændstoffer (herunder børsnoterede selskaber, der er dannet for at eje driftsaktiver, der producerer definerede pengestrømme og fokuserer på at returnere pengestrømme genereret fra vedvarende energi-aktiver til aktionærer ("<b>YieldCos</b>")) (samlet benævnt "<b>vedvarende energiselskaber</b>"), som defineret af Indxx LLC ("<b>indeksudbyderen</b>") af Indxx Renewable Energy Producers v2 Index ("<b>indekset</b>").</p>

## Global X Management Company (Europe) Limited

	<p>Fonden vil forsøge at replikere indeksets resultater med forbehold for fradrag af gebyrer og udgifter ved primært at investere i en portefølje af værdipapirer, der er kapitalandele, der så vidt muligt og praktisk muligt består af indeksets komponentværdipapirer i samme forhold som deres vægtninger i indekset og i amerikanske depotbeviser ("<b>ADR'er</b>") og globale depotbeviser ("<b>GDR'er</b>") baseret på værdipapirerne i indekset.</p> <p>Indekset vægtes i henhold til indeksudbyderens proprietære ESG-bedømmelser. Indeksudbyderen gennemgår i samarbejde med ESG-dataudbyderen, Minerva, hvert kvartal hver bestanddel af indekset for overholdelse af principperne i FN's Global Compact samt for involvering i produktionen af kontroversielle produkter. Kontroversielle produkter defineres af Minerva som produkter, der udgør en væsentlig risiko på grund af, at en stor del af investorerne opfatter dem som krænkende, pinlige, skadelige, socialt uacceptable eller etisk anstødelige. Enhver eksisterende eller potentiel bestanddel af indekset, som ikke opfylder standarderne for arbejdskraft, menneskerettigheder, miljø og anti-korruption som defineret af FN's Global Compact-principper, eller som overtræder de fastsatte tærskler for involvering i kontroversielle produkter fra og med den kvartalsvise gennemgang, vil blive udelukket fra indekset, som bestemt af indeksudbyderen.</p>
Global X Solar UCITS ETF	<p>Fonden fremmer investering i virksomheder, der er positioneret til at drage fordel af yderligere fremskridt inden for solteknologi. Fonden søger specifikt at replikere Solactive Solar v2 Index ("<b>indekset</b>"), der består af værdipapirer udstedt af "<b>solcellevirksomheder</b>" defineret af Solactive AG ("<b>indeksudbyderen</b>") som de virksomheder, der udleder mindst 50 % af deres omsætning fra følgende forretningsaktiviteter: Solenergimaterialer: Virksomheder, der er involveret i produktion af råmaterialer, der primært anvendes i solceller, eller koncentrerer soltermiske spejle eller linser (herunder silicium, cadmium-tellurid, kobber-indium-gallium-deselenid, titandioxid og/eller perovskit). Solenergisystemer og -komponenter: Virksomheder, der er involveret i udvikling og/eller fremstilling af solenergisystemer (og komponenter heraf), der udnytter energi fra den solcelleeffekt eller fra sollys til at generere elektricitet. For eksempel kan en virksomhed, der er involveret i produktionen af solpaneler, kategoriseres som havende forretningsaktiviteter relateret til solenergisystemer og -komponenter. Solpaneler består af et arrangement af solceller monteret i en ramme til installation. Produktion af solenergi: Virksomheder, der genererer og distribuerer elektricitet fra lysenergi. Solteknologi: Virksomheder, der udvikler erhvervs- og boliginfrastruktur, generatorer og motorer drevet af solenergi, samt batterier i bolig- og erhvervsskala til elektricitet produceret fra solenergi og soldrevne ladesystemer til elbiler eller andre elektriske enheder. Installation, integration og vedligeholdelse af solenergisystemer: Virksomheder, der leverer ingeniør- og/eller rådgivningsydelser til installation, integration, vedligeholdelse og/eller udnyttelse af solenergi på bolig-, erhvervs- og industriniveau.</p> <p>Fonden vil forsøge at replikere indeksets resultater med forbehold for fradrag af gebyrer og udgifter ved primært at investere i en portefølje af værdipapirer, der er kapitalandele, der så vidt muligt og praktisk muligt består af indeksets komponentværdipapirer i samme forhold som deres vægtninger i indekset og i amerikanske depotbeviser ("<b>ADR'er</b>") og globale depotbeviser ("<b>GDR'er</b>") baseret på værdipapirerne i indekset.</p> <p>Indekset vægtes i henhold til indeksudbyderens proprietære ESG-bedømmelser. Indeksudbyderen gennemgår i samarbejde med ESG-dataudbyderen, Minerva, hvert kvartal hver bestanddel af indekset for overholdelse af principperne i FN's Global Compact samt for involvering i produktionen af kontroversielle produkter. Kontroversielle produkter defineres af Minerva som produkter, der udgør en væsentlig risiko på grund af, at en stor del af investorerne opfatter dem som krænkende, pinlige, skadelige, socialt uacceptable eller etisk anstødelige. Enhver eksisterende eller potentiel bestanddel af indekset, som ikke opfylder standarderne for arbejdskraft, menneskerettigheder, miljø og anti-korruption som defineret af FN's Global Compact-principper, eller som overtræder de fastsatte tærskler for involvering i kontroversielle produkter fra og med den kvartalsvise gennemgang, vil blive udelukket fra indekset, som bestemt af indeksudbyderen.</p>
Global X Wind Energy UCITS ETF	<p>Fonden fremmer investering i virksomheder, der er positioneret til at drage fordel af yderligere fremskridt inden for vindenergiteknologi. Fonden vil forsøge at replikere resultaterne af Solactive Wind Energy v2 Index ("<b>indekset</b>") til at omfatte værdipapirer udstedt af "<b>vindenergivirksomheder</b>" som defineret af Solactive AG ("<b>indeksudbyderen</b>") som de virksomheder, der udleder mindst 50 % af deres omsætning, driftsindtægter eller aktiver fra følgende forretningsaktiviteter: Vindenergisystemer: Virksomheder, der er involveret i udvikling, fremstilling, integration og/eller vedligeholdelse af turbinekomponenter og turbiner, der udnytter energi fra vinden og omdanner den til elektrisk strøm. Produktion af vindkraft: Virksomheder, der genererer og distribuerer elektricitet fra vindkraft. Vindenergiteknologi: Virksomheder, der udvikler erhvervs- og boliginfrastruktur og -systemer, der drives af vindenergi, samt batterier i bolig- og erhvervsskala til elektricitet produceret af vindkraft. Integration og vedligeholdelse af vindkraft: Virksomheder, der leverer ingeniør- og/eller rådgivningsydelser til installation, vedligeholdelse og/eller udnyttelse af vindkraft på bolig-, erhvervs- og industriniveau. Derudover er virksomheder, der af indeksudbyderen er identificeret som havende primære forretningsaktiviteter inden for de ovenfor beskrevne forretningsaktiviteter, men som ikke aktuelt genererer omsætning ("<b>vindenergivirksomheder, der ikke aktuelt genererer omsætning</b>"), berettiget til optagelse i indekset, hvis der er færre end 25 berettigede vindenergivirksomheder. Virksomheder, der ikke aktuelt generer omsætning er underlagt en samlet vægtgrænse på 10 % ved hver halvårlig rebalancering.</p> <p>Fonden vil forsøge at replikere indeksets resultater med forbehold for fradrag af gebyrer og udgifter ved primært at investere i en portefølje af værdipapirer, der er kapitalandele, der så vidt muligt og praktisk muligt består af indeksets komponentværdipapirer i samme forhold som deres vægtninger i indekset og i amerikanske depotbeviser ("<b>ADR'er</b>") og globale depotbeviser ("<b>GDR'er</b>") baseret på værdipapirerne i indekset.</p>

Global X Management Company (Europe) Limited

	<p>Indekset vægtes i henhold til indeksudbyderens proprietære ESG-bedømmelser. Indeksudbyderen gennemgår i samarbejde med ESG-dataudbyderen, Minerva, hvert kvartal hver bestanddel af indekset for overholdelse af principperne i FN's Global Compact samt for involvering i produktionen af kontroversielle produkter. Kontroversielle produkter defineres af Minerva som produkter, der udgør en væsentlig risiko på grund af, at en stor del af investorerne opfatter dem som krænkende, pinlige, skadelige, socialt uacceptable eller etisk anstødelige. Enhver eksisterende eller potentiel bestanddel af indekset, som ikke opfylder standarderne for arbejdskraft, menneskerettigheder, miljø og anti-korruption som defineret af FN's Global Compact-principper, eller som overtræder de fastsatte tærskler for involvering i kontroversielle produkter fra og med den kvartalsvise gennemgang, vil blive udelukket fra indekset, som bestemt af indeksudbyderen.</p>
Global X AgTech & Food Innovation UCITS ETF	<p>Fonden fremmer forbedret miljøpåvirkning for landbruget og mere bæredygtige fødevarer systemer ved at investere i AgTech &amp; Food Innovation Companies, der er positioneret til at drage fordel af yderligere fremskridt inden for landbrugsteknologi ("<b>AgTech</b>") og fødevareinnovation, ved at replikere indekset. Indekset vil nærmere bestemt omfatte værdipapirer udstedt af "AgTech &amp; Food Innovation Companies" som defineret af indeksudbyderen Solactive AG. "AgTech &amp; Food Innovation Companies" er de virksomheder, der udleder mindst 50 % af deres omsætning, driftsindtægter eller aktiver fra følgende forretningsaktiviteter: Præcisionslandbrug: Præcisionslandbrug anvender teknologi og data til at optimere landbrugspraksisser, hvilket minimerer ressourceforbruget såsom vand, gødning og pesticider gennem målrettet anvendelse. Ved at reducere inputaffald og miljøpåvirkning fremmer præcisionslandbrug bæredygtighed i landbruget og bidrager samtidig til bevarelse af biodiversitet og sundhed i økosystemet. Teknologier bruges til at øge afgrødeudbyttet og reducere niveauet af traditionelle landbrugsinput (jord, vand, gødning, osv.) for at dyrke afgrøder mere rentabelt/effektivt. Forretningsaktiviteter omfatter udvikling af geografisk informationssystem-software og -hardware ("<b>GIS</b>") til GIS-baseret landbrug, præcisionsteknologier til ukrudtskontrol, jord- og vandsensorer, vejrsporing og satellitbilleddannelse. Protein- og mejerialternativer: Protein- og mejerialternativer tilbyder bæredygtige muligheder for traditionelle produkter af animalsk oprindelse med lavere miljøaftryk med hensyn til arealanvendelse, vandforbrug og drivhusgasudledninger. Ved at fremme plantebaserede proteiner og ikke-mejerialternativer kan enkeltpersoner og brancher mindske miljøpåvirkningen og bidrage til et mere bæredygtigt fødevarer system, der imødekommer bekymringer relateret til skovrydning, ødelæggelse af levesteder og klimaforandringer. Reduktion af madspild: Strategier for reduktion af madspild har til formål at minimere affald i forskellige faser af forsyningskæden, fra produktion og distribution til forbrug, hvorved ressourcer bevares, og drivhusgasudledninger reduceres. Gennem forbedrede høstteknikker og -teknologier, opbevaringsmetoder, forbrugeruddannelse og initiativer til omfordeling af overskydende fødevarer mindsker indsatsen for at reducere madspild miljøpåvirkningen, letter presset på økosystemerne og bidrager til et mere bæredygtigt og effektivt fødevarer system. Robotter/automatisering: Robotter og automatiseringsteknologier strømliner landbrugsopgaver gennem droner, autonome køretøjer og systemer, der drives af kunstig intelligens, hvilket forbedrer produktiviteten, reducerer lønomkostningerne og optimerer ressourceforbruget for at fremme bæredygtige landbrugsmetoder med potentielt lavere miljøpåvirkninger. Landbrug med kontrolleret miljø: Landbrug med kontrolleret miljø involverer dyrkning af afgrøder indendørs eller i kontrollerede omgivelser, hvilket optimerer betingelserne for at muliggøre produktion året rundt, bevarer ressourcer og tilbyder muligheder for bylandbrug, og fremmer dermed fødevarer sikkerhed og reducerer presset på naturlige økosystemer. Landbrugsbioteknologi: Bioteknologi inden for landbruget udnytter genteknologi til at forbedre de agronomiske egenskaber ved afgrøder, øge udbyttet og styrke modstandsdygtigheden over for skadedyr og sygdomme, hvilket potentielt reducerer afhængigheden af kemiske input, samtidig med at der tages fat på fødevarer sikkerhedsproblemer. Fonden vil forsøge at replikere indeksets resultater.</p> <p>Fonden vil forsøge at replikere indeksets resultater med forbehold for fradrag af gebyrer og udgifter ved primært at investere i en portefølje af værdipapirer, der er kapitalandele, der så vidt muligt og praktisk muligt består af indeksets komponentværdipapirer i samme forhold som deres vægtninger i indekset og i amerikanske depotbeviser ("<b>ADR'er</b>") og globale depotbeviser ("<b>GDR'er</b>") baseret på værdipapirerne i indekset.</p> <p>Indekset vægtes i henhold til indeksudbyderens proprietære ESG-bedømmelser. Indeksudbyderen gennemgår i samarbejde med ESG-dataudbyderen, Minerva, hvert kvartal hver bestanddel af indekset for overholdelse af principperne i FN's Global Compact samt for involvering i produktionen af kontroversielle produkter. Kontroversielle produkter defineres af Minerva som produkter, der udgør en væsentlig risiko på grund af, at en stor andel af investorerne opfatter dem som krænkende, pinlige, skadelige, socialt uacceptable eller etisk anstødelige. Enhver eksisterende eller potentiel bestanddel af indekset, som ikke opfylder standarderne for arbejdskraft, menneskerettigheder, miljø og anti-korruption som defineret af FN's Global Compact-principper, eller som overtræder de fastsatte tærskler for involvering i kontroversielle produkter fra og med den kvartalsvise gennemgang, vil blive udelukket fra indekset, som bestemt af indeksudbyderen.</p>

## Global X Management Company (Europe) Limited

### Website section 'Environmental or social characteristics of the financial product'

Full name of the Article 8 (sub-) fund:	Environmental or social characteristics or the sustainable investment objective of that financial product.
Global X Clean Water UCITS ETF	<p>The Fund promotes investment in companies that have business operations in the provision of clean provision of clean water ("<b>Clean Water Companies</b>"), by replicating the Solactive Global Clean Water Industry v2 Index (the "<b>Index</b>").</p> <p>Clean Water Companies as defined by Solactive AG, (the "<b>Index Provider</b>"), are those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: (1) Industrial water treatment, recycling (including water reclamation), purification, and conservation; (2) water storage, transportation, metering, and distribution infrastructure; (3) production of household and commercial water purifier and heating products; and (4) provision of consulting services identifying and implementing water efficiency strategies at the corporate and/ or municipal levels.</p>
Global X CleanTech UCITS ETF	<p>The Fund promotes investment in exchange-listed companies that are positioned to benefit from the increased adoption of technologies focused on improving the efficiency of renewable energy production and/or mitigating the adverse environmental effects of resource consumption ("<b>CleanTech</b>"), including, but not limited to, companies whose principal business is in developing technology relating to renewable energy, energy efficiency and storage, smart grid, lithium-ion batteries and/or fuel cells, and/or pollution prevention/amelioration (collectively, "<b>CleanTech Companies</b>"), as defined by Indxx LLC (the "<b>Index Provider</b>") the index provider of the Indxx Global CleanTech v2 Index (the "<b>Index</b>"). The Fund seeks to replicate the performance of the Index.</p>
Global X Hydrogen UCITS ETF	<p>The Fund promotes investment in companies that that are positioned to benefit from further advances in the field of hydrogen technology. Hydrogen technology includes products and services focused on the development and implementation of hydrogen gas as a renewable fuel source.</p> <p>Specifically, the Fund will seek to replicate the performance of the Solactive Global Hydrogen v2 Index (the "<b>Index</b>") that will include securities issued by "Hydrogen Companies" as defined by Solactive AG, (the "<b>Index Provider</b>") as those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: 1. Hydrogen Production: Companies involved in the production, transportation, storage, and distribution of hydrogen (including renewable hydrogen) that can be used as an energy source. 2. Hydrogen Fuel Cells: Companies that develop and/or manufacture fuel cells (and the components thereof) that convert chemical energy into electricity and heat, powered by hydrogen fuel and/or reformed hydrogen-rich gas. 3. Hydrogen Technology: Companies involved in the production of hydrogen electrolyzers (which produce hydrogen gas from water), tanks and pipelines, commercial and residential infrastructure, generators, engines, and vehicles powered by hydrogen fuel cells, as well as hydrogen fuelling stations. 4. Hydrogen Integration: Companies that provide engineering and consulting services for the adoption and utilization of hydrogen-based fuel and/or energy sources at the residential, commercial, and industrial levels.</p> <p>In addition, companies identified by the Index Provider as deriving greater than 0% but less than 50% of revenue from the business activities described above ("<b>Diversified Hydrogen Companies</b>"), as well as companies identified by the Index Provider as having primary business operations in the business activities described above but that do not currently generate revenues ("<b>Pre-Revenue Hydrogen Companies</b>"), are eligible for inclusion in the Index. In addition, Diversified Hydrogen Companies and Pre-Revenue Hydrogen Companies are subject to an individual weight cap of 2% and an aggregate weight cap of 10% at each semi-annual rebalance.</p>
Global X Renewable Energy Producers UCITS ETF	<p>The Fund promotes investment in renewable sources including wind, solar, hydroelectric, geothermal, and biofuels by investing in publicly traded companies listed in either developed or emerging markets (excluding India) that produce energy from renewable sources including wind, solar, hydroelectric, geothermal, and biofuels (including publicly traded companies that are formed to own operating assets that produce defined cash flows and are focused on returning cash flows generated from renewable energy assets to shareholders), as defined by Indxx LLC (the "<b>Index Provider</b>") the index provider of the Indxx Renewable Energy Producers v2 Index (the "<b>Index</b>"). The Fund will seek to replicate the performance of the Index.</p>
Global X Solar UCITS ETF	<p>The Fund promotes investment in companies that are positioned to benefit from further advances in the field of solar technology. Specifically, the Fund seeks to replicate the Solactive Solar v2 Index (the "<b>Index</b>") that consists of securities issued by "Solar Companies" defined by Solactive AG, the ("<b>Index Provider</b>") as those companies that derive at least 50% of their revenues from the following business activities: Solar Energy Materials: Companies involved in the production of raw materials that are primarily used in photovoltaic solar cells or concentrating solar-thermal mirrors or lenses (including silicon, cadmium telluride, copper indium gallium deselenide, titanium dioxide, and/or perovskite). Solar Energy Systems &amp; Components: Companies involved in the development and/or manufacturing of solar energy systems (and the components thereof) that harness energy from the photovoltaic effect or from sunlight to generate electricity. For example, a company involved in the production of solar panels may be categorized as having business activities related to Solar Energy Systems &amp; Components. Solar panels consist of an arrangement of solar photovoltaic cells mounted in a</p>

## Global X Management Company (Europe) Limited

	<p>framework for installation. Solar Power Production: Companies that generate and distribute electricity from light energy. Solar Technology: Companies that develop commercial and residential infrastructure, generators, and engines powered by solar energy, as well as residential and commercial scale batteries for electricity produced from solar power, and solar-powered charging systems for electric vehicles or other electric devices. Solar Installation, Integration &amp; Maintenance: Companies that provide engineering and/or advisory services for the installation, integration, maintenance, and/or utilization of solar power at the residential, commercial, and industrial levels.</p>
Global X Wind Energy UCITS ETF	<p>The Fund promotes investment in companies that are positioned to benefit from further advances in the field of wind energy technology. The Fund will seek to replicate the performance of the Solactive Wind Energy v2 Index (the “<b>Index</b>”) to include securities issued by “Wind Energy Companies” as defined by Solactive AG, (the “<b>Index Provider</b>”) as those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: Wind Energy Systems: Companies involved in development, manufacturing, integration, and/or maintenance of turbine components and turbines that harness energy from the wind and convert it into electrical power. Wind Power Production: Companies that generate and distribute electricity from wind power.</p> <p>Wind Energy Technology: Companies that develop commercial and residential infrastructure and systems powered by wind energy, as well as residential and commercial scale batteries for electricity produced from wind power. Wind Power Integration &amp; Maintenance: Companies that provide engineering and/or advisory services for the installation, maintenance, and/or utilization of wind energy at the residential, commercial, and industrial levels. In addition, companies identified by the Index Provider as having primary business operations in the business activities described above but that do not currently generate revenues (“<b>Pre-Revenue Wind Energy Companies</b>”), are eligible for inclusion in the Index if there are fewer than 25 eligible Wind Energy Companies. Pre-Revenue Wind Energy Companies are subject to an aggregate weight cap of 10% at each semi-annual rebalance.</p>
Global X AgTech & Food Innovation UCITS ETF	<p>The Fund promotes improved environmental impact for farming and more sustainable food systems by investment in AgTech &amp; Food Innovation Companies that are positioned to benefit from further advances in the fields of agricultural technology (“<b>AgTech</b>”) and food innovation through replicating the Index. Specifically, the Index will include securities issued by “AgTech &amp; Food Innovation Companies” as defined by Solactive AG, the Index Provider. “AgTech &amp; Food Innovation Companies” are those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: Precision Agriculture: Precision agriculture utilises technology and data to optimise farming practices, minimising resource usage such as water, fertilizer, and pesticides through targeted application. By reducing input waste and environmental impact, precision agriculture promotes sustainability in farming while also contributing to biodiversity conservation and ecosystem health. Technologies are used to increase crop yields and reduce levels of traditional agricultural inputs (land, water, fertilizer, etc.) to grow crops more profitably/efficiently. Business activities include the development of Geographic Information System (“<b>GIS</b>”) software and hardware for GIS-based agriculture, precision weed control technologies, soil and water sensors, weather tracking, and satellite imaging. Protein &amp; Dairy Alternatives: Protein and dairy alternative products offer sustainable options to traditional animal-based products, with lower environmental footprints in terms of land use, water consumption, and greenhouse gas emissions. By promoting plant-based proteins and non-dairy alternatives, individuals and industries can mitigate environmental impact and contribute to a more sustainable food system, addressing concerns related to deforestation, habitat destruction, and climate change. Food Waste Reduction: Food waste reduction strategies aim to minimise waste at various stages of the supply chain, from production and distribution to consumption, thereby conserving resources and reducing greenhouse gas emissions. Through improved harvesting techniques and technologies, storage methods, consumer education, and surplus food redistribution initiatives, food waste reduction efforts mitigate environmental impact, alleviate pressure on ecosystems, and contribute to a more sustainable and efficient food system. Robotics/Automation: Robotics and automation technologies streamline agricultural tasks through drones, autonomous vehicles, and artificial intelligence-driven systems, enhancing productivity, reducing labour costs, and optimising resource usage to foster sustainable farming practices with potentially lower environmental impacts. Controlled Environment Agriculture: Controlled environment agriculture involves growing crops indoors or in controlled settings, optimising conditions to enable year-round production, conserving resources, and offering opportunities for urban farming, thus promoting food security and reducing pressure on natural ecosystems. Agricultural Biotechnology: Biotechnology in agriculture utilises genetic engineering to improve crop traits, enhance yields, and bolster resistance to pests and diseases, potentially reducing the reliance on chemical inputs while addressing food security concerns. The Fund will seek to replicate the performance of the Index.</p>

### Website section 'Limitations to methodologies and data'

Full name of the Article 8 (sub-) fund:	
Global X Clean Water UCITS ETF	<p>The data landscape for ESG analysis and reporting is rapidly developing and data quality and methodology currently face industry-wide challenges. Limitations on methodologies and ESG data include the lack of consistency, reliability, comparability, and quality of the data available. This is driven by issues including, but not limited to:</p> <ul style="list-style-type: none"> <li>• Lack of common methodology across providers of ESG ratings;</li> <li>• Lack of standardised reporting by companies;</li> <li>• Different models and analytical tools for unreported data; and</li> <li>• Backward looking information that fails to capture "direction of travel".</li> </ul> <p>The Investment Manager does not verify a company as a Clean Water Company (as defined above) and is reliant on the Index Provider's and ESG data provider Minerva's expertise to select the companies according to the criteria as set out in the methodology of the Index and based on the sustainability indicators and exclusion screens. The Index Provider and Minerva are subject to initial and ongoing due diligence checks by the Investment Manager to verify their skill and expertise.</p> <p>The Investment Manager does not generally have the ability to independently verify data from external data providers and is therefore dependent on the integrity of external providers and the processes by which any such data is generated. In placing reliance on external data providers there are certain risks that may arise, including but not limited to errors in third party data used by the Investment Manager.</p>

## Global X Management Company (Europe) Limited

	<p>Such errors may be undetectable and can result in holdings weightings that are inconsistent with the stated methodology of the index and/or the investment objective and/or policy of the Fund. The Funds could incur unexpected costs as a result such errors.</p> <p>These limitations are addressed by:</p> <ul style="list-style-type: none"> <li>• Use of varied data sources; and</li> <li>• Reliance on internal research and analysis using third party data as complementary information.</li> </ul> <p>These limitations do not impact on the Fund's ability to attain the environmental and/or social characteristics that it promotes.</p>
Global X CleanTech UCITS ETF	<p>The data landscape for ESG analysis and reporting is rapidly developing and data quality and methodology currently face industry-wide challenges.</p> <p>Limitations on methodologies and ESG data include the lack of consistency, reliability, comparability, and quality of the data available. ### Website section 'Due diligence'

Full name of the Article 8 (sub-) fund:	
Global X Clean Water UCITS ETF	<p>The Investment Manager carries out due diligence on any third party data provider, such as the Index Provider and Minerva, evaluates the Index methodology to determine whether it will achieve the desired investment outcome and environmental or social characteristics promoted by the Fund, carries out spot checks of data each quarter, and escalates data concerns to the data provider as needed.</p> <p>Where data is provided from a third party provider, the Investment Manager evaluates the methodology at the outset and then carries out spot checks of the data each quarterly. Data metrics required for reporting are currently calculated in house in line with recognised guidance and regulations.</p> <p>The Investment Manager carries out an analysis of the investment universe of potential securities (and in particular the degree of coverage by third-party ESG data providers) and the exclusionary criteria applied (e.g., compliance with the principles of the United Nations Global Compact, as well as for involvement in the production of controversial products). Any existing or potential constituent of the Index which does not meet the labor, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review will be excluded from the Index, as determined by the Index Provider.</p>
Global X CleanTech UCITS ETF	<p>The Investment Manager carries out due diligence on any third party data provider, such as the Index Provider and Minerva, evaluates the Index methodology to determine whether it will achieve the desired investment outcome and environmental or social characteristics promoted by the Fund, carries out spot checks of data each quarter, and escalates data concerns to the data provider as needed.</p> <p>Where data is provided from a third party provider, the Investment Manager evaluates the methodology at the outset and then carries out spot checks of the data each quarterly.
