### Webbplatsavsnittet "Sammanfattning"

Fullständigt namn på (del)fonden i artikel 8:	Sammanfattning
Global X Clean Water UCITS ETF	<p>Fonden främjar investeringar i företag som har affärsverksamhet i tillhandahållandet av rent vatten ("vattenreningsföretag"), genom att replikera Solactive Global Clean Water Industry v2 Index ("<b>indexet</b>").</p> <p>Fonden kommer att försöka replikera indexets resultat med förbehåll för avdrag för avgifter och utgifter genom att främst investera i en portfölj av aktierelaterade värdepapper som, så långt det är möjligt och genomförbart, består av indexets komponentvärdepapper i liknande proportioner som deras viktningar i indexet och i amerikanska depåbevis ("<b>ADR:er</b>") och globala depåbevis ("<b>GDR:er</b>") på grundval av värdepapperen i indexet.</p> <p>Vattenreningsföretag, enligt Solactive AG:s definition, leverantören av indexet ("<b>indexleverantören</b>"), är de företag som får minst 50 % av sina intäkter, rörelseintäkter eller tillgångar från följande affärsverksamhet: (1) Industriell vattenrening, återvinning (inklusive vattenåtervinning), rening, och bevarande, (2) lagring av vatten, transport, mätning, och distributionsinfrastruktur, (3) produktion av hushålls- och kommersiella vattenrenare och värmeprodukter, och (4) tillhandahållande av ekonomisk verksamhet som bidrar till ett miljömässigt eller socialt mål, under förutsättning att investeringen inte väsentligen skadar något miljömässigt eller socialt mål och att de investerade företagen följer god förvaltningssed.</p> <p>Indexet är viktat enligt indexleverantörens egna ESG-betyg. Indexleverantören granskar kvartalsvis, i samarbete med ESG-dataleverantören Minerva, varje beståndsdel i indexet för att kontrollera efterlevnad med principerna i FN:s Global Compact-initiativ samt för att delta i produktionen av kontroversiella produkter. Kontroversiella produkter definieras av Minerva som produkter som utgör en väsentlig risk på grund av att en stor del av investerarna uppfattar dem som stötande, pinsamma, skadliga, socialt oacceptabla eller etiskt stötande. Alla befintliga eller potentiella beståndsdelar i indexet som inte uppfyller normerna för arbete, mänskliga rättigheter, miljö och antikorrup­tion enligt definitionen i FN:s Global Compact-principer, eller som bryter mot de fastställda tröskelvärdena för deltagande i kontroversiella produkter, från och med kvartalsgranskningen kommer att uteslutas från indexet, enligt vad som fastställs av indexleverantören.</p>
Global X CleanTech UCITS ETF	<p>Fonden främjar investeringar i börsnoterade företag som är positionerade för att dra nytta av den ökade användningen av teknik som är inriktad på att förbättra effektiviteten i produktionen av förnybar energi och/eller mildra de negativa miljöeffekterna av resursförbrukning ("<b>CleanTech</b>"), inklusive, men inte begränsat till, företag vars huvudsakliga verksamhet är att utveckla teknik för förnybar energi, energieffektivitet och lagring, smarta elnät, litiumjonbatterier och/eller bränsleceller, och/eller förebyggande/förbättrande av föroreningar (gemensamt, "<b>CleanTech-företag</b>"), enligt definition av Indxx LLC, ("<b>indexleverantören</b>") i Indxx Global CleanTech v2 Index ("<b>indexet</b>").</p>

## Global X Management Company (Europe) Limited

	<p>Fonden kommer att försöka replikera indexets resultat med förbehåll för avdrag för avgifter och utgifter genom att främst investera i en portfölj av aktierelaterade värdepapper som, så långt det är möjligt och genomförbart, består av indexets komponentvärdepapper i liknande proportioner som deras viktningar i indexet och i amerikanska depåbevis ("ADR:er") och globala depåbevis ("GDR:er") på grundval av värdepapperen i indexet.</p> <p>Indexet är viktat enligt indexleverantörens egna ESG-betyg. Indexleverantören granskar kvartalsvis, i samarbete med ESG-dataleverantören Minerva, varje beståndsdel i indexet för att kontrollera efterlevnad med principerna i FN:s Global Compact-initiativ samt för att delta i produktionen av kontroversiella produkter. Kontroversiella produkter definieras av Minerva som produkter som utgör en väsentlig risk på grund av att en stor del av investerarna uppfattar dem som stötande, pinsamma, skadliga, socialt oacceptabla eller etiskt stötande. Alla befintliga eller potentiella beståndsdelar i indexet som inte uppfyller normerna för arbete, mänskliga rättigheter, miljö och antikorruption enligt definitionen i FN:s Global Compact-principer, eller som bryter mot de fastställda tröskelvärdena för deltagande i kontroversiella produkter, från och med kvartalsgranskningen kommer att uteslutas från indexet, enligt vad som fastställs av indexleverantören.</p>
<p>Global X Hydrogen UCITS ETF</p>	<p>Fonden främjar investeringar i företag som är positionerade för att dra nytta av ytterligare framsteg inom vätgasteknik.</p> <p>Vätgasteknik omfattar produkter och tjänster som är inriktade på utveckling och implementering av vätgas som förnybar bränslekälla.</p> <p>Fonden kommer i synnerhet att försöka replikera resultatet av Solactive Global Hydrogen v2 Index ("<b>indexet</b>") som kommer att omfatta värdepapper utgivna av "<b>vätgasföretag</b>" enligt Solactive AG:s definition, ("<b>indexleverantören</b>") som de företag som härleder minst 50 % av sina intäkter, rörelseintäkter eller tillgångar från följande affärsverksamhet: 1. Produktion av vätgas: Företag som är involverade i produktion, transport, lagring och distribution av väte (inklusive förnybart väte) som kan användas som energikälla. 2. Vätebränsleceller: Företag som utvecklar och/eller tillverkar bränsleceller (och dess komponenter) som omvandlar kemisk energi till el och värme, som drivs av vätebränsle och/eller reformerad väterik gas. 3. Väteteknik: Företag som är involverade i produktion av vätgaselektrolysatorer (som producerar vätgas från vatten), tankar och rörledningar, kommersiell infrastruktur och bostadsinfrastruktur, generatorer, motorer och fordon som drivs av vätgasbränsleceller samt vätgasbränslestationer. 4. Integrering av vätgas: Företag som tillhandahåller teknik- och konsulttjänster för antagande och användning av vätebaserade bränslen och/eller energikällor på bostads-, handels- och industrinivå.</p> <p>Dessutom är företag som av indexleverantören identifierats härrör från mer än 0 % men mindre än 50 % av intäkterna från den affärsverksamhet som beskrivs ovan ("<b>diversifierade vätgasföretag</b>"), såväl som företag som identifierats av indexleverantören som primära affärsverksamheter i den affärsverksamhet som beskrivs ovan men som för närvarande inte genererar intäkter ("Pre-Revenue-vätgasföretag"), berättigade att innefattas i indexet. Dessutom är diversifierade vätgasföretag och Pre-Revenue-vätgasföretag föremål för ett individuellt vikttag på 2 % och ett sammanlagt vikttag på 10 % vid varje halvårsvisa ombalansering.</p> <p>Fonden kommer att försöka replikera indexets resultat med förbehåll för avdrag för avgifter och utgifter genom att främst investera i en portfölj av aktierelaterade värdepapper som, så långt det är möjligt och genomförbart, består av indexets komponentvärdepapper i liknande proportioner som deras viktningar i indexet och i amerikanska depåbevis ("ADR:er") och globala depåbevis ("GDR:er") på grundval av värdepapperen i indexet.</p> <p>Indexet är viktat enligt indexleverantörens egna ESG-betyg. Indexleverantören granskar kvartalsvis, i samarbete med ESG-dataleverantören Minerva, varje beståndsdel i indexet för att kontrollera efterlevnad med principerna i FN:s Global Compact-initiativ samt för att delta i produktionen av kontroversiella produkter. Kontroversiella produkter definieras av Minerva som produkter som utgör en väsentlig risk på grund av att en stor del av investerarna uppfattar dem som stötande, pinsamma, skadliga, socialt oacceptabla eller etiskt stötande. Alla befintliga eller potentiella beståndsdelar i indexet som inte uppfyller normerna för arbete, mänskliga rättigheter, miljö och antikorruption enligt definitionen i FN:s Global Compact-principer, eller som bryter mot de fastställda tröskelvärdena för deltagande i kontroversiella produkter, från och med kvartalsgranskningen kommer att uteslutas från indexet, enligt vad som fastställs av indexleverantören.</p>
<p>Global X Renewable Energy Producers UCITS ETF</p>	<p>Fonden främjar investeringar i förnybara källor, inklusive vindkraft, solenergi, vattenkraft, geotermisk, och biobränslen genom att investera i börsnoterade företag som är noterade på antingen utvecklade marknader eller tillväxtmarknader (exklusive Indien) som producerar energi från förnybara källor, inklusive vindkraft, solenergi, vattenkraft, geotermisk, och biobränslen (inklusive börsnoterade företag som bildas för att äga rörelsetillgångar som producerar definierade kassaflöden och är inriktade på att returnera kassaflöden som genererats från förnybara energitillgångar till aktieägare ("<b>YieldCos</b>") (gemensamt, "<b>förnybara energiföretag</b>", enligt definitionen av Indxx LLC ("<b>indexleverantören</b>") i Indxx Renewable Energy Producers v2 Index ("<b>index</b>").</p>

## Global X Management Company (Europe) Limited

	<p>Fonden kommer att försöka replikera indexets resultat med förbehåll för avdrag för avgifter och utgifter genom att främst investera i en portfölj av aktierelaterade värdepapper som, så långt det är möjligt och genomförbart, består av indexets komponentvärdepapper i liknande proportioner som deras viktningar i indexet och i amerikanska depåbevis ("ADR:er") och globala depåbevis ("GDR:er") på grundval av värdepapperen i indexet.</p> <p>Indexet är viktat enligt indexleverantörens egna ESG-betyg. Indexleverantören granskar kvartalsvis, i samarbete med ESG-dataleverantören Minerva, varje beståndsdel i indexet för att kontrollera efterlevnad med principerna i FN:s Global Compact-initiativ samt för att delta i produktionen av kontroversiella produkter. Kontroversiella produkter definieras av Minerva som produkter som utgör en väsentlig risk på grund av att en stor del av investerarna uppfattar dem som stötande, pinsamma, skadliga, socialt oacceptabla eller etiskt stötande. Alla befintliga eller potentiella beståndsdelar i indexet som inte uppfyller normerna för arbete, mänskliga rättigheter, miljö och antikorrupktion enligt definitionen i FN:s Global Compact-principer, eller som bryter mot de fastställda tröskelvärdena för deltagande i kontroversiella produkter, från och med kvartalsgranskningen kommer att uteslutas från indexet, enligt vad som fastställs av indexleverantören.</p>
Global X Solar UCITS ETF	<p>Fonden främjar investeringar i företag som är positionerade för att dra nytta av ytterligare framsteg inom solteknik. Fonden strävar i synnerhet efter att replikera Solactive Solar v2 Index ("<b>indexet</b>") som består av värdepapper emitterade av "<b>solcellsföretag</b>" som definieras av Solactive AG, ("<b>indexleverantören</b>") som de företag som erhåller minst 50 % av sina intäkter från följande affärsverksamhet: Material för solenergi: Företag som är involverade i produktion av råvaror som främst används i solceller eller koncentrerar soltermiska speglar eller linser (inklusive kisel, kadmiumteleurid, koppar indium gallium deselenid, titandioxid och / eller perovskit). Solenergisystem och komponenter: Företag som är involverade i utveckling och/eller tillverkning av solenergisystem (och dess komponenter) som utnyttjar energi från solcellseffekten eller från solljus för att generera elektricitet. Till exempel kan ett företag som är involverat i produktionen av solpaneler kategoriseras som att ha affärsverksamhet relaterad till solenergisystem och komponenter. Solpaneler består av ett arrangemang av solceller monterade i ett ramverk för installation. Produktion av solenergi: Företag som genererar och distribuerar el från ljusenergi. Solteknik: Företag som utvecklar kommersiell och bostadsinfrastruktur, generatorer och motorer som drivs av solenergi, samt bostads- och kommersiella batterier för el som produceras från solenergi och soldrivna laddningssystem för elfordon eller andra elektriska enheter. Installation, integrering och underhåll av solenergi: Företag som tillhandahåller tekniska och/eller rådgivande tjänster för installation, integration, underhåll och/eller användning av solenergi på bostads-, kommersiella och industriella nivåer.</p> <p>Fonden kommer att försöka replikera indexets resultat med förbehåll för avdrag för avgifter och utgifter genom att främst investera i en portfölj av aktierelaterade värdepapper som, så långt det är möjligt och genomförbart, består av indexets komponentvärdepapper i liknande proportioner som deras viktningar i indexet och i amerikanska depåbevis ("ADR:er") och globala depåbevis ("GDR:er") på grundval av värdepapperen i indexet.</p> <p>Indexet är viktat enligt indexleverantörens egna ESG-betyg. Indexleverantören granskar kvartalsvis, i samarbete med ESG-dataleverantören Minerva, varje beståndsdel i indexet för att kontrollera efterlevnad med principerna i FN:s Global Compact-initiativ samt för att delta i produktionen av kontroversiella produkter. Kontroversiella produkter definieras av Minerva som produkter som utgör en väsentlig risk på grund av att en stor del av investerarna uppfattar dem som stötande, pinsamma, skadliga, socialt oacceptabla eller etiskt stötande. Alla befintliga eller potentiella beståndsdelar i indexet som inte uppfyller normerna för arbete, mänskliga rättigheter, miljö och antikorrupktion enligt definitionen i FN:s Global Compact-principer, eller som bryter mot de fastställda tröskelvärdena för deltagande i kontroversiella produkter, från och med kvartalsgranskningen kommer att uteslutas från indexet, enligt vad som fastställs av indexleverantören.</p>
Global X Wind Energy UCITS ETF	<p>Fonden främjar investeringar i företag som är positionerade för att dra nytta av ytterligare framsteg inom vindkraftsteknik. Fonden kommer att försöka replikera resultatet av indexet Solactive Wind Energy v2 ("<b>indexet</b>") för att inkludera värdepapper som emitterats av "<b>vindenergiföretag</b>" enligt Solactive AG:s definition, ("<b>indexleverantören</b>") som de företag som erhåller minst 50 % av sina intäkter, rörelseintäkter eller tillgångar från följande affärsverksamhet: Vindkraftssystem: Företag som är involverade i utveckling, tillverkning, integration och/eller underhåll av turbinkomponenter och turbiner som utnyttjar energi från vinden och omvandlar den till elkraft. Produktion av vindkraft: Företag som genererar och distribuerar el från vindkraft. Vindkraftsteknik: Företag som utvecklar kommersiell och bostadsinfrastruktur och system som drivs av vindkraft, samt bostads- och kommersiella batterier för el som produceras från vindkraft. Integrering och underhåll av vindkraft: Företag som tillhandahåller tekniska och/eller rådgivande tjänster för installation, underhåll och/eller användning av vindkraft på bostads-, kommersiella och industriella nivåer. Dessutom är företaget som av indexleverantören identifieras ha primär affärsverksamhet i den affärsverksamhet som beskrivs ovan men som för närvarande inte genererar intäkter ("<b>Pre-Revenue-vindkraftsföretag</b>"), berättigade till att innefattas i indexet om det finns färre än 25 berättigade vindkraftsföretag. Pre-Revenue-vindkraftsföretag är föremål för ett sammanlagt vikttag på 10 % vid varje halvårsvisa ombalansering.</p> <p>Fonden kommer att försöka replikera indexets resultat med förbehåll för avdrag för avgifter och utgifter genom att främst investera i en portfölj av aktierelaterade värdepapper som, så långt det är möjligt och genomförbart, består av indexets komponentvärdepapper i liknande proportioner som deras viktningar i indexet och i amerikanska depåbevis ("ADR:er") och globala depåbevis ("GDR:er") på grundval av värdepapperen i indexet.</p>

## Global X Management Company (Europe) Limited

	<p>Indexet är viktat enligt indexleverantörens egna ESG-betyg. Indexleverantören granskar kvartalsvis, i samarbete med ESG-dataleverantören Minerva, varje beståndsdel i indexet för att kontrollera efterlevnad med principerna i FN:s Global Compact-initiativ samt för att delta i produktionen av kontroversiella produkter. Kontroversiella produkter definieras av Minerva som produkter som utgör en väsentlig risk på grund av att en stor del av investerarna uppfattar dem som stötande, pinsamma, skadliga, socialt oacceptabla eller etiskt stötande. Alla befintliga eller potentiella beståndsdelar i indexet som inte uppfyller normerna för arbete, mänskliga rättigheter, miljö och antikorrup­tion enligt definitionen i FN:s Global Compact-principer, eller som bryter mot de fastställda tröskelvärdena för deltagande i kontroversiella produkter, från och med kvartalsgranskningen kommer att uteslutas från indexet, enligt vad som fastställs av indexleverantören.</p>
<p>Global X AgTech &amp; Food Innovation UCITS ETF</p>	<p>Fonden främjar förbättrad miljöpåverkan för jordbruk och mer hållbara livsmedelssystem genom investeringar i AgTech &amp; Food Innovation Companies som är positionerade för att dra nytta av ytterligare framsteg inom jordbruksteknik ("<b>AgTech</b>") och livsmedelsinnovation genom att replikera indexet. Specifikt kommer indexet att inkludera värdepapper som emitterats av "AgTech &amp; Food Innovation Companies" enligt definitionen av Solactive AG, indexleverantören. "AgTech &amp; Food Innovation Companies" är de företag som erhåller minst 50 % av sina intäkter, rörelseintäkter eller tillgångar från följande affärsverksamheter: Precisionsjordbruk: Precisionsjordbruk använder teknik och data för att optimera jordbruksmetoder och minimera resursanvändning som vatten, gödningsmedel och bekämpningsmedel genom målinriktad tillämpning. Genom att minska insatsavfallet och miljöpåverkan främjar precisionsjordbruket hållbarhet inom jordbruket samtidigt som det bidrar till bevarande av biologisk mångfald och ekosystemhälsa. Teknik används för att öka skördarna och minska nivåerna av traditionella jordbruksinsatser (mark, vatten, gödningsmedel etc.) för att odla grödor mer lönsamt / effektivt. Affärsaktiviteter inkluderar utveckling av Geographic Information System (<b>GIS</b>) programvara och hårdvara för GIS-baserat jordbruk, precision ogräskontrollteknik, mark och vattensensorer, väderspårning och satellitbildtagning. Alternativ för protein och mejeriprodukter: Alternativa protein- och mejeriprodukter erbjuder hållbara alternativ till traditionella djurbaserade produkter, med lägre miljöpåverkan när det gäller markanvändning, vattenförbrukning och utsläpp av växthusgaser. Genom att främja växtbaserade proteiner och alternativ som inte är mejeriprodukter kan individer och industrier minska miljöpåverkan och bidra till ett mer hållbart livsmedelssystem som tar itu med problem relaterade till avskogning, förstörelse av livsmiljöer och klimatförändringar. Minskning av matavfall: Strategier för att minska matsvinnet syftar till att minimera avfallet i olika skeden av leveranskedjan, från produktion och distribution till konsumtion, och därigenom spara resurser och minska utsläppen av växthusgaser. Genom förbättrade skördetekniker och tekniker, lagringsmetoder, konsumentutbildning och initiativ för överskottsfordelning av livsmedel minskar insatserna för att minska livsmedelsavfallets miljöpåverkan, minskar trycket på ekosystemen och bidrar till ett mer hållbart och effektivt livsmedelssystem. Robotteknik/automatisering: Robot- och automatiseringsteknik effektiviserar jordbruksuppgifter genom drönare, autonoma fordon och system som drivs av artificiell intelligens, förbättrar produktiviteten, minskar arbetskostnaderna och optimerar resursanvändningen för att främja hållbara jordbruksmetoder med potentiellt lägre miljöpåverkan. Jordbruk i kontrollerad miljö: Jordbruket i kontrollerad miljö innebär att odla grödor inomhus eller i kontrollerade miljöer, optimerar förhållanden för att möjliggöra produktion året runt, bevara resurser och erbjuda möjligheter till stadsjordbruk, vilket främjar livsmedels säkerhet och minskar trycket på naturliga ekosystem. Jordbrukets bioteknik: Bioteknik inom jordbruket använder genteknik för att förbättra grödans egenskaper, öka avkastningen och stärka motståndskraften mot skadedjur och sjukdomar, vilket potentiellt minskar beroendet av kemiska insatser samtidigt som livsmedels säkerhetsproblem åtgärdas. Fonden kommer att försöka replikera indexets resultat.</p> <p>Fonden kommer att försöka replikera indexets resultat med förbehåll för avdrag för avgifter och utgifter genom att främst investera i en portfölj av aktierrelaterade värdepapper som, så långt det är möjligt och genomförbart, består av indexets komponentvärdepapper i liknande proportioner som deras viktningar i indexet och i amerikanska depåbevis ("<b>ADR:er</b>") och globala depåbevis ("<b>GDR:er</b>") på grundval av värdepapperen i indexet</p> <p>Indexet är viktat enligt indexleverantörens egna ESG-betyg. Indexleverantören granskar kvartalsvis, i samarbete med ESG-dataleverantören Minerva, varje beståndsdel i indexet för att kontrollera efterlevnad med principerna i FN:s Global Compact-initiativ samt för att delta i produktionen av kontroversiella produkter. Kontroversiella produkter definieras av Minerva som produkter som utgör en väsentlig risk för en stor andel av investerare som uppfattar dem som stötande, genanta, skadliga, socialt oacceptabla, eller etiskt anstötliga. Alla befintliga eller potentiella beståndsdelar i indexet som inte uppfyller normerna för arbete, mänskliga rättigheter, miljö och antikorrup­tion enligt definitionen i FN:s Global Compact-principer, eller som bryter mot de fastställda tröskelvärdena för deltagande i kontroversiella produkter, från och med kvartalsgranskningen kommer att uteslutas från indexet, enligt vad som fastställs av indexleverantören.</p>

## Global X Management Company (Europe) Limited

### Website section 'Environmental or social characteristics of the financial product'

Full name of the Article 8 (sub-) fund:	Environmental or social characteristics or the sustainable investment objective of that financial product.
Global X Clean Water UCITS ETF	<p>The Fund promotes investment in companies that have business operations in the provision of clean provision of clean water ("<b>Clean Water Companies</b>"), by replicating the Solactive Global Clean Water Industry v2 Index (the "<b>Index</b>").</p> <p>Clean Water Companies as defined by Solactive AG, (the "<b>Index Provider</b>"), are those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: (1) Industrial water treatment, recycling (including water reclamation), purification, and conservation; (2) water storage, transportation, metering, and distribution infrastructure; (3) production of household and commercial water purifier and heating products; and (4) provision of consulting services identifying and implementing water efficiency strategies at the corporate and/ or municipal levels.</p>
Global X CleanTech UCITS ETF	<p>The Fund promotes investment in exchange-listed companies that are positioned to benefit from the increased adoption of technologies focused on improving the efficiency of renewable energy production and/or mitigating the adverse environmental effects of resource consumption ("<b>CleanTech</b>"), including, but not limited to, companies whose principal business is in developing technology relating to renewable energy, energy efficiency and storage, smart grid, lithium-ion batteries and/or fuel cells, and/or pollution prevention/amelioration (collectively, "<b>CleanTech Companies</b>"), as defined by Indxx LLC (the "<b>Index Provider</b>") the index provider of the Indxx Global CleanTech v2 Index (the "<b>Index</b>"). The Fund seeks to replicate the performance of the Index.</p>
Global X Hydrogen UCITS ETF	<p>The Fund promotes investment in companies that that are positioned to benefit from further advances in the field of hydrogen technology. Hydrogen technology includes products and services focused on the development and implementation of hydrogen gas as a renewable fuel source.</p> <p>Specifically, the Fund will seek to replicate the performance of the Solactive Global Hydrogen v2 Index (the "<b>Index</b>") that will include securities issued by "Hydrogen Companies" as defined by Solactive AG, (the "<b>Index Provider</b>") as those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: 1. Hydrogen Production: Companies involved in the production, transportation, storage, and distribution of hydrogen (including renewable hydrogen) that can be used as an energy source. 2. Hydrogen Fuel Cells: Companies that develop and/or manufacture fuel cells (and the components thereof) that convert chemical energy into electricity and heat, powered by hydrogen fuel and/or reformed hydrogen-rich gas. 3. Hydrogen Technology: Companies involved in the production of hydrogen electrolyzers (which produce hydrogen gas from water), tanks and pipelines, commercial and residential infrastructure, generators, engines, and vehicles powered by hydrogen fuel cells, as well as hydrogen fuelling stations. 4. Hydrogen Integration: Companies that provide engineering and consulting services for the adoption and utilization of hydrogen-based fuel and/or energy sources at the residential, commercial, and industrial levels.</p> <p>In addition, companies identified by the Index Provider as deriving greater than 0% but less than 50% of revenue from the business activities described above ("<b>Diversified Hydrogen Companies</b>"), as well as companies identified by the Index Provider as having primary business operations in the business activities described above but that do not currently generate revenues ("<b>Pre-Revenue Hydrogen Companies</b>"), are eligible for inclusion in the Index. In addition, Diversified Hydrogen Companies and Pre-Revenue Hydrogen Companies are subject to an individual weight cap of 2% and an aggregate weight cap of 10% at each semi-annual rebalance.</p>
Global X Renewable Energy Producers UCITS ETF	<p>The Fund promotes investment in renewable sources including wind, solar, hydroelectric, geothermal, and biofuels by investing in publicly traded companies listed in either developed or emerging markets (excluding India) that produce energy from renewable sources including wind, solar, hydroelectric, geothermal, and biofuels (including publicly traded companies that are formed to own operating assets that produce defined cash flows and are focused on returning cash flows generated from renewable energy assets to shareholders), as defined by Indxx LLC (the "<b>Index Provider</b>") the index provider of the Indxx Renewable Energy Producers v2 Index (the "<b>Index</b>"). The Fund will seek to replicate the performance of the Index.</p>
Global X Solar UCITS ETF	<p>The Fund promotes investment in companies that are positioned to benefit from further advances in the field of solar technology. Specifically, the Fund seeks to replicate the Solactive Solar v2 Index (the "<b>Index</b>") that consists of securities issued by "Solar Companies" defined by Solactive AG, the ("<b>Index Provider</b>") as those companies that derive at least 50% of their revenues from the following business activities: Solar Energy Materials: Companies involved in the production of raw materials that are primarily used in photovoltaic solar cells or concentrating solar-thermal mirrors or lenses (including silicon, cadmium telluride, copper indium gallium deselenide, titanium dioxide, and/or perovskite). Solar Energy Systems &amp; Components: Companies involved in the development and/or manufacturing of solar energy systems (and the components thereof) that harness energy from the photovoltaic effect or from sunlight to generate electricity. For example, a company involved in the production of solar panels may be categorized as having business activities related to Solar Energy Systems &amp; Components. Solar panels consist of an arrangement of solar photovoltaic cells mounted in a</p>

## Global X Management Company (Europe) Limited

	<p>framework for installation. Solar Power Production: Companies that generate and distribute electricity from light energy. Solar Technology: Companies that develop commercial and residential infrastructure, generators, and engines powered by solar energy, as well as residential and commercial scale batteries for electricity produced from solar power, and solar-powered charging systems for electric vehicles or other electric devices. Solar Installation, Integration &amp; Maintenance: Companies that provide engineering and/or advisory services for the installation, integration, maintenance, and/or utilization of solar power at the residential, commercial, and industrial levels.</p>
<p>Global X Wind Energy UCITS ETF</p>	<p>The Fund promotes investment in companies that are positioned to benefit from further advances in the field of wind energy technology. The Fund will seek to replicate the performance of the Solactive Wind Energy v2 Index (the “<b>Index</b>”) to include securities issued by “Wind Energy Companies” as defined by Solactive AG, (the “<b>Index Provider</b>”) as those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: Wind Energy Systems: Companies involved in development, manufacturing, integration, and/or maintenance of turbine components and turbines that harness energy from the wind and convert it into electrical power. Wind Power Production: Companies that generate and distribute electricity from wind power.</p> <p>Wind Energy Technology: Companies that develop commercial and residential infrastructure and systems powered by wind energy, as well as residential and commercial scale batteries for electricity produced from wind power. Wind Power Integration &amp; Maintenance: Companies that provide engineering and/or advisory services for the installation, maintenance, and/or utilization of wind energy at the residential, commercial, and industrial levels. In addition, companies identified by the Index Provider as having primary business operations in the business activities described above but that do not currently generate revenues (“<b>Pre-Revenue Wind Energy Companies</b>”), are eligible for inclusion in the Index if there are fewer than 25 eligible Wind Energy Companies. Pre-Revenue Wind Energy Companies are subject to an aggregate weight cap of 10% at each semi-annual rebalance.</p>
<p>Global X AgTech &amp; Food Innovation UCITS ETF</p>	<p>The Fund promotes improved environmental impact for farming and more sustainable food systems by investment in AgTech &amp; Food Innovation Companies that are positioned to benefit from further advances in the fields of agricultural technology (“<b>AgTech</b>”) and food innovation through replicating the Index. Specifically, the Index will include securities issued by “AgTech &amp; Food Innovation Companies” as defined by Solactive AG, the Index Provider. “AgTech &amp; Food Innovation Companies” are those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: Precision Agriculture: Precision agriculture utilises technology and data to optimise farming practices, minimising resource usage such as water, fertilizer, and pesticides through targeted application. By reducing input waste and environmental impact, precision agriculture promotes sustainability in farming while also contributing to biodiversity conservation and ecosystem health. Technologies are used to increase crop yields and reduce levels of traditional agricultural inputs (land, water, fertilizer, etc.) to grow crops more profitably/efficiently. Business activities include the development of Geographic Information System (“<b>GIS</b>”) software and hardware for GIS-based agriculture, precision weed control technologies, soil and water sensors, weather tracking, and satellite imaging. Protein &amp; Dairy Alternatives: Protein and dairy alternative products offer sustainable options to traditional animal-based products, with lower environmental footprints in terms of land use, water consumption, and greenhouse gas emissions. By promoting plant-based proteins and non-dairy alternatives, individuals and industries can mitigate environmental impact and contribute to a more sustainable food system, addressing concerns related to deforestation, habitat destruction, and climate change. Food Waste Reduction: Food waste reduction strategies aim to minimise waste at various stages of the supply chain, from production and distribution to consumption, thereby conserving resources and reducing greenhouse gas emissions. Through improved harvesting techniques and technologies, storage methods, consumer education, and surplus food redistribution initiatives, food waste reduction efforts mitigate environmental impact, alleviate pressure on ecosystems, and contribute to a more sustainable and efficient food system. Robotics/Automation: Robotics and automation technologies streamline agricultural tasks through drones, autonomous vehicles, and artificial intelligence-driven systems, enhancing productivity, reducing labour costs, and optimising resource usage to foster sustainable farming practices with potentially lower environmental impacts. Controlled Environment Agriculture: Controlled environment agriculture involves growing crops indoors or in controlled settings, optimising conditions to enable year-round production, conserving resources, and offering opportunities for urban farming, thus promoting food security and reducing pressure on natural ecosystems. Agricultural Biotechnology: Biotechnology in agriculture utilises genetic engineering to improve crop traits, enhance yields, and bolster resistance to pests and diseases, potentially reducing the reliance on chemical inputs while addressing food security concerns. The Fund will seek to replicate the performance of the Index.</p>

Global X CleanTech UCITS ETF	<p>As the Fund achieves the environmental and/or social characteristics by replicating the Index, the Investment Manager will monitor the Fund's ability to replicate the Index in line with the investment strategy of the Fund. The Investment Manager monitors the tracking error of the Fund (being the standard deviation of the difference in returns between the Fund and the Index) throughout the lifecycle of the Fund to ensure that this is within the limits as set out in the Supplement.</p>

## Global X Management Company (Europe) Limited

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund are:

- 1 the percentage of the eligible universe of companies screened out of the portfolio of the Fund out as a result of the application of the ESG screening criteria incorporated in the Index methodology; and
- 2 the percentage of the companies comprising the portfolio of the Fund which comply with the principles of the United Nations Global Compact.

A current list of applicable exclusion lists is maintained on the Index Provider's website at: <https://www.solactive.com/indices/?index=DE000SL0CZS9>.

The sustainability indicators of the Fund are considered on an ongoing basis and in particular at each rebalancing of the Index by continuous assessment of each Index constituent's annual reporting, and other available data to the Investment Manager's ESG screening provider.

The good governance practices for each of the entities in which the Fund invests are assessed by applying the following:

United Nations Global Compact Principles:

Each of the eligible companies for investment by the Fund are screened on a quarterly basis to assess whether each constituent complies with the principles of the United Nations Global Compact in order that the Fund will aim to invest only in companies that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption.

Controversial Products:

Each constituent is also reviewed on a quarterly basis for involvement in the production of controversial products. Controversial products are defined as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

Exclusions:

Any existing or potential constituent of the Index which does not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review will be excluded from the Index and therefore not included in the Fund's investment universe.

The Investment Manager has adopted proxy voting policies and guidelines and has engaged a third party proxy solicitation firm, Glass Lewis & Co. ("**Glass Lewis**"), whose guidelines encourage the maximization of return for shareholders through identifying and avoiding financial, audit and corporate governance risks. Except in instances where the Investment Manager has provided Glass Lewis with different direction, Glass Lewis has agreed to vote proxies in accordance with recommendations developed by Glass Lewis and overseen by the Investment Manager.

### Website section 'Due diligence'

<p><b>Full name of the Article 8 (sub-) fund:</b></p>	
<p>Global X Clean Water UCITS ETF</p>	<p>The Investment Manager carries out due diligence on any third party data provider, such as the Index Provider and Minerva, evaluates the Index methodology to determine whether it will achieve the desired investment outcome and environmental or social characteristics promoted by the Fund, carries out spot checks of data each quarter, and escalates data concerns to the data provider as needed.</p> <p>Where data is provided from a third party provider, the Investment Manager evaluates the methodology at the outset and then carries out spot checks of the data each quarterly. Data metrics required for reporting are currently calculated in house in line with recognised guidance and regulations.</p> <p>The Investment Manager carries out an analysis of the investment universe of potential securities (and in particular the degree of coverage by third-party ESG data providers) and the exclusionary criteria applied (e.g., compliance with the principles of the United Nations Global Compact, as well as for involvement in the production of controversial products). Any existing or potential constituent of the Index which does not meet the labor, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review will be excluded from the Index, as determined by the Index Provider.</p>
